

Assignment Feedback Form

Student Name/ID/Section	HASHEM NAJDAWI / 353131/ Sec 5		
HTU Course Title and No.	102220: Managing a Professional Engineering Project		
BTEC Unit, Title and ID	Unit 4004: Managing a Professional Engineering Project (L/651/0712)		
Assignment Number	1	Assessor(s)	Leen Serhan Malak AlGhadi
Submission Date	21/06/2026	Date Received 1st submission	21/06/2026
Re-submission Date		Date Received 2nd submission	

Ongoing formative feedback from assessor:

- Instructor gave general introduction about the course content and learning outcomes.
- Assignment brief details were explained beside evaluation criteria description.
- Instructor discussed the suggested projects with the student and their group.
- General formative sessions for class and separate groups beside individuals' discussions after lecture.
- Instructor explained project management, business value and need, project lifecycle and stage gates.
- Instructor discussed project and product scopes, RAMS, quality, QA, QC and Design for Maintainability.
- Instructor explained problem research process.
- Instructor demonstrated and clarified in the class, the steps and procedures for a literature review and methodology and how perform a chronological review of technology as applied to the students' projects.
- Instructor clarified added value and market-driven aspects of a project.
- Instructor explored problem definition process tools including problem tree analysis, problem statement and root cause analysis.
- Instructor clarified stakeholders analysis using PESTEL tool along the mapping using the power-interest matrix.
- Instructor explained importance of evaluating the success of the project plan and making future recommendations using Critical Success Factors CSFs and Key Performance Indicators KPIs.
- Work Break Down Structure WBS and work plan were explained.
- Instructor explained market research elements, cost structure of project, Bill of Material BOM and time phased budget.
- Instructor explained the methodology of feasibility and how to use it to compare and select between different projects.
- Instructor highlighted the effect of ethics in developing the project plan using several samples like NSPE, The Engineering Council and Royal Academy of Engineering's Statement of Ethics and UK standard for Professional Engineering Competence and Commitment UK-SPEC.
- Instructor highlighted the effect of legislation on project plan using several samples like Jordan Metrological

and Standards Organisation JSMO, Health and Safety Executive HSE and ISO.

- Instructor explained the tasks relations and types and how to illustrate them in PERT and Gantt charts beside Lab sessions on MS Project.
- Instructor clarified how to perform critical analysis and evaluation for the project plan using the critical path analysis CPA.
- Steps to complete components of user instruction manual were discussed and explained.
- SWOT analysis for individuals and for project plan were discussed.
- Weighted evaluation technique for prototype evaluation was thoroughly explained in lab sessions.
- Instructor explained how to critically analyse the project outcomes making recommendations for further development using FMEA method.
- Instructor clarified how to analyse own behaviours and performance during the project and suggest areas for improvement using Schon's reflective model, CPD discussion and performance review.
- Instructor discussed presentation skills, time management skills, Minimum Viable Product MVP.

Assessor feedback for summative assessment:

You showed:

- Strong ability to Select an appropriate engineering/manufacturing-based project, giving reasons for the selection.
- Strong ability to Create a project plan for the engineering/manufacturing project.
- Strong ability to Undertake a feasibility study to justify project selection.
- Strong ability to Illustrate the effect of legislation and ethics in developing the project plan.
- Strong ability to Conduct project activities, recording progress against the original project plan.
- Strong ability to Explore alternative methods to monitor and meet project milestones, and justify selection of chosen method(s).
- Strong ability to Critically evaluate the success of the project plan, making recommendations for improvement.
- Strong ability to Produce a project report covering each stage of the project and analysing project outcomes.
- Strong ability to Use appropriate critical analysis and evaluation techniques to analyse project findings.
- Strong ability to Critically analyse the project outcomes, making recommendations for further development.
- Strong ability to Present the project activities and outcomes using appropriate media to an audience.
- Strong ability to Analyse own behaviours and performance during the project activities and suggest areas for improvement

ASSESSOR DECLARATION:

I declare that the work submitted for assessment has been carried out without assistance other than that which is acceptable according to the rules of the specification. I certify that to the best of my knowledge the evidence submitted for this assignment is the student's own. The student has clearly referenced any sources, and any AI tools used in the work. I have not solely used AI to mark student's work. I understand that false declaration is a form of malpractice.	
Assessor(s) Name(s): Eng. Leen Serhan Eng. Malak Alghadi	Assessor(s) Signature(s): <i>Leen Serhan</i> <i>Malak ALghadi</i>

STUDENT DECLARATION:

I certify that the formative and summative assessments for this assignment have been fully explained and understood by me, I also understand that the grade above is subject to verification processes, which might result in some cases in a grade change.
